- (g) **identical and interchangeable materials** means materials that are fungible as a result of being of the same kind and commercial quality, possessing the same technical and physical characteristics, and which once they are incorporated into the finished product cannot be distinguished from one another for origin purposes by virtue of any markings or mere visual examination;
- (h) **importer** means a person who imports a good into the importing Party in accordance with the applicable laws and regulations of the importing Party;
- (i) **indirect material** means any material used in the production, testing, or inspection of a good but not physically incorporated into it or the operation of equipment associated with the production of a good, including:
 - (i) fuel and energy;

Article 3.2: Originating Goods

Except as otherwise provided in this Chapter, a good shall qualify as an originating good of a Party if the good is:

- (a) wholly obtained or produced entirely in the territory of that Party as defined in Article 3.3 (Wholly Obtained or Produced Goods);
- (b) not wholly obtained or produced entirely in the territory of that Party, provided that the good has satisfied the requirements of Article 3.4 (Not Wholly Obtained or Produced Goods); or
- (c) produced entirely in the territory of that Party exclusively from originating materials,

and meets all other applicable requirements of this Chapter.

Article 3.3: Wholly Obtained or Produced Goods

For the purposes of this Chapter, the following goods shall be considered as wholly obtained or produced in the territory of a Party:

- (a) plants and plant goods, including fruit, flowers, vegetables, trees, seaweed, fungi, and live plants, grown and harvested, picked, or gathered there;
- (b) live animals born and raised there;

of being restored or repaired and are fit only for disposal, for the recovery of raw materials, or for recycling purposes; or

(ii) used articles collected there which can no longer perform their original purpose there nor are capable of being restored or repaired, and which are fit only for disposal or for the recovery of parts or raw materials; and

(j) goods obtained or produced there exclusively from goods referred to in subparagraphs (a) through (i), or from their derivatives, at any stage of production.

Article 3.4: Not Wholly Obtained or Produced Goods

1. For the purposes of subparagraph (b) of Article 3.2 (Originating Goods), a good shall be deemed to be originating if the good satisfies any of the following:
 - (a) a Change in Tariff Heading (hereinafter referred to as “CTH”), which means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the four digit level;
 - (b) a Qualifying Value Content (hereinafter referred to as “QVC”) of not less than 40% of the FOB value; or
 - (c) a QVC of not less than 35% of the Ex-Works value.
2. Notwithstanding paragraph 1, a good shall be deemed to be originating if the good satisfies the Product Specific Rules (hereinafter referred to as “PSR”). The Parties agree to develop and implement the Annex on PSR within 12 months from the date of entry into force of this Agreement.
3. For the purposes of paragraph 1, the QVC shall be calculated as follows:

(a) FOB

$$QVC = \frac{FOB\ Value - V.N.M}{FOB\ Value} * 100$$

or

(b) Ex-Works (EXW)

$$QVC = \frac{EXW\ Value - V.N.M}{EXW\ Value} * 100$$

where :

QVC is the qualifying value content of a good, expressed as a percentage;

FOB is the Free on Board value of the finished good;

EXW is the price paid for the good ex-works to the manufacturer in the Party in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used, minus any internal taxes which are, or may be, repaid when the good obtained is exported; and

VNM is the CIF value of the non-originating materials at the time of importation or the earliest ascertained price paid or payable in the Party where the production takes place for all non-originating materials, parts, or produce that are acquired by the producer in the production of the good. When the producer of a good acquires non-originating materials within that Party the value of such materials shall not include freight, insurance, packing costs, and any other costs incurred in transporting the material from the supplier's warehouse to the producer's location.

Article 3.5: Indirect Materials

Any indirect material used in the production of a good shall be treated as originating material irrespective of where such indirect material is originating.

Article 3.6: Non-Qualifying Operations

Notwithstanding any provisions in this Chapter, a good shall not be considered to be originating in the territory of a Party if only the following operations are undertaken exclusively by itself or in combination in the territory of that Party:

- (a) operations to ensure the preservation of products in good condition during transport and storage such as drying, freezing, ventilation, chilling, and like operations;
- (b) sifting, classifying, washing, cutting, slitting, bending, coiling or uncoiling, sharpening, simple grinding, or slicing;
- (c) cleaning, including removal of oxide, oil, paint, or other coverings;
- (d) painting and polishing operations;
- (e) testing or calibration;
- (f) placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards, and all other simple packaging operations;
- (g) simple mixing² of goods, whether or not of different kinds;
- (h) simple assembly³ of parts of products to constitute a complete good or disassembly of products into parts;
- (i) changes of packing, unpacking or repacking operations, and breaking up and assembly of consignments;

² For the purposes of this Article, “simple mixing” generally describes an activity which does not need special skills, machine, apparatus or equipment especially produce or install for carrying out the activity. However, simple mixing does not include chemical reaction. “Chemical reaction” means a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

³ For the purposes of this Article, “simple assembly” generally describes an activity which does not need special skills, machines, apparatus or equipment especially produced or installed for carrying out the activity.

- (j) affixing or printing marks, labels, logos and other like distinguishing signs on goods or their packaging;
- (k) husking, partial or total bleaching, polishing, and glazing of cereals and rice; or
- (l) mere dilution with water or another substance that does not materially alter the characteristics of the goods.

Article 3.7: Accumulation

1. An originating good of a Party which is used in the processing or production in the territory of the other Party as material for finished goods shall be deemed as a material originating in the territory of the latter Party where the working or processing of the finished goods has taken place.
2. Notwithstanding paragraph 1, an originating material from a Party that does not undergo processing beyond the minimal or non-qualifying operations listed in Article 3.6 (Non-Qualifying Operations) in the other Party shall retain its originating status of the former Party.

Article 3.8: Intermediate Goods

For a non-originating material that undergoes sufficient production in the territory of one or both Parties as provided in Article 3.4 (Not Wholly Obtained or Produced Goods), the total value of the resulting good shall be the originating value when that good is used in the subsequent production of another good.

Article 3.9: *De Minimis*

1. A good that does not satisfy a change in tariff classification requirement as set out in PSR to be agreed pursuant to paragraph 2 of Article 3.4 (Not Wholly Obtained or Produced Goods) shall be considered as originating if:
 - (a) the value of all non-originating materials used in the production of the good that did not undergo the required

change in tariff classification does not exceed 10 per cent of the FOB value of the good; or

- (b) for a good provided for in Chapters 50 through 63 of the HS Code, the weight or value of all non-originating materials used in its production that did not undergo the required change in tariff classification does not exceed 10 per cent of the total weight or the FOB value of the good,

and the good meets all other applicable criteria set forth in this Chapter for qualifying as an originating good.

2. The value of non-originating materials referred to in paragraph 1, however, shall be included in the value of non-originating materials for any applicable QVC requirement for the good.

Article 3.10: Identical and Interchangeable Materials

1. The determination of whether identical and interchangeable materials are originating shall be made either by physical segregation of each of the materials, or by the use of generally accepted accounting principle of stock control or inventory management practice applicable in the exporting Party.
2. The inventory management method used under paragraph 1 for particular identical and interchangeable materials shall continue to be used for that material throughout the fiscal year.

Article 3.11: Accessories, Spare Parts, and Tools

1. Accessories, spare parts, tools, and instructional or other information materials delivered with a good that form part of the good's standard accessories, spare parts, tools, and instructional or other information materials shall be regarded as a part of the good, and shall be disregarded in determining whether or not all the non-originating materials used in the production of the originating goods undergo the applicable change in tariff classification provided that:
 - (a) the accessories, spare parts, tools, and instructional or other information materials are classified with and not invoiced

separately from the good; and

- (b) the quantities and value of the accessories, spare parts, tools, and instructional or other information materials presented with the good are customary for the good.
- 2. Notwithstanding paragraph 1, if the goods are subject to a QVC requirement, the value of the accessories, spare parts, tools, and instructional or other information materials shall be taken into account as originating or non-originating materials, as the case may be, in calculating the QVC of the goods.

Article 3.12: Treatment of Packages, Packing Materials, and Containers

- 1. If a good is subject to the QVC requirement, the value of the packages and packing materials for retail sale, shall be taken into account in determining the origin of such good as originating or non-originating, as the case may be, provided that the packages and packing materials are considered to be forming a whole with the good.
- 2. If a good is subject to the change in tariff classification criterion, packages and packing materials for retail sale classified together with the packaged good according to the General Rules for the Interpretation of the Harmonised System, shall not be taken into account in determining the origin of such good.
- 3. Packing materials and containers used exclusively for the transportation of a good shall not be taken into account in determining the origin of such good.

Article 3.13: Consignment Criteria

- 1. An originating good shall be deemed as directly consigned from the exporting Party to the importing Party if:
 - (a) transported directly from the other Party; or
 - (b) transported for the purpose of transit through one or more

intermediate non-Parties with or without transshipment or temporary storage in such non-Parties, provided that:

- (i) the transit entry is justified for geographical reasons or by considerations related exclusively to transport requirements;
- (ii) the good have not entered into trade or consumption there; and
- (iii) the good have not undergone any operation there other than unloading and reloading or any operation required to keep them in good condition.

2. For the purposes of implementing paragraph 1 where transportation is effected through the territory of any non-Party, the customs authority of the importing Party may require importers who claim the preferential tariff treatment for the good to submit supporting documentation, such as:

- (a) a single transport document covering the passage from the exporting Party to the importing Party; or
- (b) supporting documents or any other information, given by the customs authority of such non-Party or other relevant entities in evidence that the requirements of subparagraph 1(b) have been complied with.

Article 3.14: Free Zones

A good produced in a free zone⁴ situated within the territory of a Party shall be considered an originating good provided that it qualifies as originating under the provisions of this Chapter.

⁴ For the purposes of this Article, “free zone” refers to the respective Parties relevant laws and regulations

Article 3.15: Claim for Preferential Tariff Treatment

A claim that a good is eligible for preferential tariff treatment under this Agreement shall be supported by a Proof of Origin in accordance with Article 3.16 (Proof of Origin).

SECTION B

OPERATIONAL CERTIFICATION PROCEDURES

Article 3.16: Proof of Origin

1. Goods originating in a Party shall, on importation into the other Party, benefit from preferential tariff treatment under this Agreement on the basis of a Proof of Origin.
2. Any of the following shall be considered as a Proof of Origin:
 - (a) a Certificate of Origin in paper format issued by a competent authority referred to in Article 3.17 (Certificate of Origin in Paper Format);
 - (b) an electronic Certificate of Origin issued by a competent authority and exchanged by a mutually developed electronic system referred to in Article 3.18 (Electronic Data Origin Exchange System); or
 - (c) a Declaration of Origin made out by an approved exporter, referred to in Article 3.19 (Origin Declaration).
3. The Proof of Origin in paragraph 2 shall be in the English language.

Article 3.17: Certificate of Origin in Paper Format

1. A Certificate of Origin in paper format:
 - (a) shall be on A4 size paper and utilize the form in Annex 3A (Certificate of Origin).

- (b) may cover one or more goods under one consignment; and
 - (c) shall be in a printed format⁵ or such other medium including electronic format.
- 2. Each Certificate of Origin shall bear a unique serial reference number separately given by each place or office of issuance.
- 3. A Certificate of Origin shall bear an authorised signature and the official seal of the competent authority. The signature and official seal may be applied electronically.
- 4. In case the signature or official seal is applied electronically, a verification of authenticity, such as QR code or secured website, shall be included.

Article 3.18: Electronic Data Origin Exchange System

For the purposes of subparagraph 2(b) of Article 3.16 (Proof of Origin), the Parties shall endeavour to develop an electronic system for the exchange of information on origin with a view to ensure the effective and efficient implementation of this Chapter, particularly as regards transmission of electronic Certificate of Origin.

Article 3.19: Origin Declaration

For the purposes of subparagraph 2(c) of Article 3.16 (Proof of Origin), the Parties shall endeavour to negotiate and implement provisions allowing each competent authority to recognise a Declaration of Origin made by an approved exporter.

Article 3.20: Application for Certificate of Origin

At the time of carrying out the formalities for exporting the good under preferential treatment, the manufacturer, producer, or exporter of the good,

⁵ For the purposes of this Article, “a printed format” refers to a Certificate of Origin manually or electronically signed, stamped, and issued in the exporting Party directly from the competent authority system and printed by competent authority, producer, or exporter, or his authorised representative.

or its authorised representative shall submit a formal application to the competent authority for the Certificate of Origin together with appropriate supporting documents proving that the good to be exported qualifies for the issuance of a Certificate of Origin.

Article 3.21: Examination of an Application for a Certificate of Origin

The competent authority shall, to the best of its competence and ability, carry out a proper examination in accordance with the laws and regulations of the exporting Party of each application for a Certificate of Origin to ensure that:

- (a) the application and the Certificate of Origin is duly completed and signed by the authorised signatory;
- (b) the origin of the good meets the requirements in this Chapter;
- (c) the other statements on the Certificate of Origin are consistent with the supporting documentary evidence that has been submitted;
- (d) the HS Code, description, quantity, and value indicated in the application conform to the good to be exported; and
- (e) multiple items declared on the same Certificate of Origin shall be allowed, provided that each item must qualify separately in its own right.

Article 3.22: Treatment of Erroneous Declaration in the Certificate of Origin

Neither erasures nor superimposition shall be allowed on the Certificate of Origin. Any alterations shall be made by:

- (a) striking out the erroneous material and making any required modifications. Such modifications shall be approved by a person authorised to sign the Certificate of Origin and certified by the appropriate competent authority. Unused spaces shall be crossed out to prevent any subsequent addition; or
- (b) issuing a new Certificate of Origin to replace the erroneous one.

Article 3.23: Third Party Invoicing

1. An importing Party shall not deny a claim for preferential tariff treatment for the sole reason that an invoice was not issued by the exporter or producer of a good provided that the good meets the requirements in this Chapter.
2. In such circumstances, the exporter of the good shall indicate “third party invoicing” and the name, address, and country of the company issuing the invoice shall appear in the Certificate of Origin.

Article 3.24: Issuance of the Certificate of Origin

1. The Certificate of Origin shall be issued by the competent authority of the exporting Party prior to or at the time of shipment, or within five days thereafter.⁶
2. In exceptional cases where a Certificate of Origin has not been issued within the time-periods indicated in paragraph 1, due to involuntary errors or omissions or other valid causes, the Certificate of Origin may be issued retroactively, but not more than 12 months from the date of shipment, in which case it is necessary to indicate “ISSUED RETROACTIVELY” in box 14 of Form I-UAE CEPA (Annex 3A).

Article 3.25: Theft, Loss, or Destruction of the Certificate of Origin

1. In the event of theft, loss, or destruction of a Certificate of Origin, the manufacturer, producer, exporter, or its authorised representative may apply to the competent authority that issued it for a certified true copy of the original Certificate of Origin to be made out on the basis of the export documents in possession of the competent authority.
2. The certified true copy of the original Certificate of Origin shall be endorsed with an official signature and seal and bear the words

⁶ For the purposes of this paragraph, the day of shipment shall not be regarded as part of the five days period.

“CERTIFIED TRUE COPY” in box 12 and indicate the date of issuance of the original Certificate of Origin, and it shall be issued within the validity period of the original Certificate of Origin.

Article 3.26: Presentation of the Certificate of Origin

For the purposes of claiming preferential tariff treatment, the importer or its authorised representative shall submit to the customs authority of the importing Party, at the time of filing an import declaration, a Certificate of Origin including supporting documentation and other documents as required, in accordance with the laws and regulations of the importing Party.

Article 3.27: Validity Period of the Certificate of Origin

The following time limits for the presentation of the Certificate of Origin shall be observed:

- (a) the Certificate of Origin shall be valid for a period of 12 months from the date of its issuance, and shall be submitted to the customs authority of the importing Party within its validity period;
- (b) where the Certificate of Origin is submitted to the customs authority of the importing Party after the expiration of the time limit for its submission, such Certificate of Origin shall be accepted when failure to observe the time limit results from *force majeure* or other valid causes beyond the control of the exporter; and
- (c) in all cases, the customs authority in the importing Party may accept such Certificate of Origin provided that the products have been imported before the expiration of the time limit of the said Certificate of Origin.

Article 3.28: Treatment of Minor Discrepancies

1. The discovery of minor discrepancies between the statements made in the Certificate of Origin and those made in the documents submitted to the customs authority of the importing Party for the purpose of carrying out the formalities for importing the goods shall

not necessarily invalidate the Certificate of Origin, if it does in fact correspond to the goods submitted.

2. For multiple items declared under the same Certificate of Origin, a problem encountered with one of the items listed shall not affect or delay the granting of preferential tariff treatment and customs clearance for the remaining items listed in that Certificate of Origin. Paragraph 3 of Article 3.30 (Retroactive Check) may be applied to the problematic items.

Article 3.29: Record-Keeping Requirement

1. For the purposes of the verification process pursuant to Article 3.30 (Retroactive Check) and Article 3.31 (Verification), the manufacturer, producer, or exporter applying for the issuance of a Certificate of Origin shall, subject to the laws and regulations of the exporting Party, keep the records supporting the application for not less than four years from the date of issuance of the Certificate of Origin.
2. The importer shall keep records relevant to the importation in accordance with the laws and regulations of the importing Party.

Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.
3. The provisions of paragraph 2 shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.
4. Where authorisation is required for the supply of a service on which a specific commitment under this Chapter has been made, the competent authorities of each Party shall:
 - (a) in the case of an incomplete application, on request of the applicant, where practicable, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
 - (b) not more burdensome than necessary to ensure the quality of the service; and
 - (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.
6. In sectors in which a Party has undertaken specific commitments, that Party shall not apply licensing and qualification requirements and technical standards that nullify or impair its obligation under this Agreement in a manner which:
- (a) does not comply with the criteria outlined in subparagraphs 5(a), (b) or (c); and
 - (b) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

3. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the countries in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

- (d) for a good purchased on a commodity market or exchange;
- (e) if a procuring entity procures a prototype or a first good or service that is intended for limited trial or that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the prototype or the first good or service is suitable for production or supply

in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs. Subsequent procurements of these newly developed good or service, however, shall be subject to this Chapter;

- (g) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded and for which the entity has indicated in the notice of intended procurement concerning the initial service that limited tendering procedures might be used in awarding contracts for such new services;
- (h) for purchases made under exceptionally advantageous conditions that only arise in the very short term, such as from unusual disposals, liquidation, bankruptcy, or receivership, but not for routine purchases from regular suppliers;

- (j) in so far as is strictly necessary if, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the good or service could not be obtained in time by means of open or selective tendering; or
- (k) any other circumstances as provided in the respective Party's laws and regulations.

2. For each contract awarded in accordance with paragraph 2, a procuring entity shall prepare a report in writing, or maintain a record, that includes the name of the procuring entity, the value and kind of good or service procured, and a statement that indicates the circumstances and conditions described in paragraph 2 that justified the use of limited tendering.

Article 11.11: Negotiations

1. A Party may provide for its procuring entities to conduct negotiations in the context of covered procurement if:
 - (a) the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article 11.7 (Notices);
 - (b) it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation;

 - (d) all bids exceed the allocated prices provided for in the procuring entity's budget.
2. A procuring entity shall:
 - (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and
 - (b) when negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 11.12: Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the sole purpose or effect of creating an unnecessary obstacle to participation of suppliers of the other Party.
2. In prescribing the technical specifications for the good or service being procured, a procuring entity shall, if appropriate:
 - (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specification on international standards, if these exist and are applicable. In the absence of international standards, it shall base the technical specification on national technical regulations, recognized national standards, or building codes.
3. If design or descriptive characteristics are used in the technical specification, a procuring entity should indicate, if appropriate, that it will consider tenders of equivalent good or service that demonstrably fulfil the requirements of the procurement by including words such as “or equivalent” in the tender documentation.
4. A procuring entity shall not prescribe technical specification that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer, or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in these cases, the procuring entity includes words such as “or equivalent” in the tender documentation.
5. For greater certainty, a procuring entity may conduct market research in developing specification for a particular procurement.
6. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical

specification to promote the conservation of natural resources or the protection of the environment. Such specification, where applicable, shall be based on relevant and mutually international standards.

7. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entity, from preparing, adopting, or applying technical specification required to protect sensitive government information, including specification that may affect or limit the storage, hosting, or processing of such information outside the territory of the Party.

Article 11.13: Tender Documentation

1. A procuring entity shall promptly make available or provide on request to any interested supplier tender documentation that includes all information necessary to permit the supplier to prepare and submit a responsive tender. Unless already provided in the notice of intended procurement, that tender documentation shall include a complete description of:
 - (a) the procurement, including the nature, scope, and, if known, the quantity of the good or service to be procured or, if the quantity is not known, the estimated quantity, and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings, or instructional materials;
 - (b) any conditions for participation of suppliers, including any financial guarantees, information, and documents that suppliers are required to submit in connection with the conditions for participation;
 - (c) all evaluation criteria to be considered in the awarding of the contract and, unless price is the sole criterion, the relative importance of those criteria;
 - (d) if the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;

- (e) if there will be a public opening of tenders, the date, time, and place for the opening, and, if appropriate, the persons authorised to be present;
 - (f) any other terms or conditions relevant to the evaluation of tenders; and
 - (g) any date for delivery of good or the supply of service.
- 2. Subject to any fees if applicable, an entity should make relevant tender documentation publicly available through electronic means or a computer-based telecommunications network openly accessible to all interested suppliers.
- 3. In establishing any date for the delivery of good or the supply of service being procured, a procuring entity shall take into account factors such as the complexity of the procurement, the extent of subcontracting anticipated, and the realistic time required for production, de-stocking, and transport of good from the point of supply or for supply of service.
- 4. A procuring entity shall promptly reply to any reasonable requests for relevant information by an interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.
- 5. If, prior to the award of a contract, a procuring entity modifies the evaluation criteria or requirement set out in a notice of intended procurement or tender documentation provided to a participating supplier, or amends, or re-issues a notice or tender documentation, it shall publish or provide those modifications, or the amended or re-issued notice or tender documentation:
 - (a) to all suppliers that are participating in the procurement at the time of the modification, amendment, or re-issuance, if those suppliers are known to the procuring entity, and, in all other cases, in the same manner as the original information was made available; and
 - (b) in adequate time to allow those suppliers to modify and re-submit their initial tender, if appropriate.

Article 11.14: Time Periods

Treatment of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.
2. If the tender of a supplier is received after the time specified for receiving tenders, the procuring entity shall not penalize that supplier if the delay is due solely to the mishandling on the part of the procuring entity.
3. If a procuring entity provides a supplier with an opportunity to correct unintentional errors of form, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirement set out in the notice and tender documentation and be submitted by a supplier who satisfies the conditions for participation.
5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be fully capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notice and tender documentation, submits:
 - (a) the most advantageous tender; or
 - (b) if price is the sole criterion, the lowest price.
6. Consistent with the terms of this Chapter, a procuring entity may require a supplier to comply with general terms and conditions pursuant to the terms of the contract.
7. If a procuring entity received a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

Article 11.16: Post-Award Information

Information Provided to Suppliers

1. A procuring entity shall inform participating suppliers that have submitted a tender of the entity's contract award decision and shall do so in writing.
2. In the case that the supplier of a Party submitted a tender to a procuring entity of the other Party, on request of the former Party, the latter Party shall provide promptly information sufficient to demonstrate whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including, if applicable, information on the characteristics and relative advantages of the successful tender, without disclosing confidential information. The Party that receives the information shall not disclose it to any suppliers, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provisions of this Chapter, a Party, including its procuring entities, shall not, except to the extent required by law or with the written authorisation of the supplier that provided the information, disclose information that would prejudice legitimate commercial interests of a particular supplier or that might prejudice fair competition between suppliers.
3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities, and review bodies, to disclose confidential information if that disclosure:
 - (a) would impede law enforcement;
 - (b) might prejudice fair competition between suppliers;

- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

Article 11.18: Conduct of Procurement

Each Party shall ensure that criminal or administrative measures exist to address corruption in its government procurement. These measures may include procedures to render ineligible for participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to government procurement in the Party's territory. Each Party shall also ensure that it has in place policies and procedures to eliminate to the extent possible or manage any potential conflict of interest on the part of those engaged in or having influence over a procurement.

Article 12.2: Objective

The protection and enforcement of intellectual property rights should contribute to the promotion of technological innovation and to the transfer and dissemination of technology, to the mutual advantage of producers and users of technological knowledge and in a manner conducive to social and economic welfare, and to a balance of rights and obligations.

Article 12.3: Principles

1. Each Party may, in formulating or amending its laws and regulations, adopt measures necessary to protect public health and nutrition, and to promote the public interest in sectors of vital importance to its

socio-economic and technological development, provided that such measures are consistent with the provisions of this Chapter.

2. Appropriate measures, provided that they are consistent with the provisions of this Chapter, may be needed to prevent the abuse of intellectual property rights by right holders or the resort to practices which unreasonably restrain trade or adversely affect the international transfer of technology.
3. Further to paragraph 2, the Parties recognise the need to foster competition.

Article 12.4: Understandings in Respect of this Chapter

Having regard to the underlying public policy objectives of national systems, the Parties recognise the need to:

²² For the purposes of this paragraph, “protection” shall include matters affecting the availability, acquisition, scope, maintenance, and enforcement of intellectual property rights as well as matters affecting the use of intellectual property rights specifically covered by this Chapter. For greater certainty, “matters affecting the use of intellectual property rights specifically covered by this Chapter” in respect of works, performances, and phonograms, include any form of payment, such as licensing fees, royalties, equitable remuneration, or levies, in respect of uses that fall under the copyright and related rights in this Chapter. 2. Unless provided for in this Chapter, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement for that Party has fallen into the public domain in its territory.
3. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement for a Party.

Article 12.15: Well-Known Trademarks

1. No Party shall require as a condition for determining that a trademark is well-known that the trademark has been registered in the Party or in another jurisdiction, included on a list of well-known trademarks, or given prior recognition as a well-known trademark.

Article 12.23: Genetic Resources and Traditional Knowledge

1. The Parties reaffirm their sovereign rights over their natural resources. If the Parties have not agreed on the length of the reasonable period of time, the complaining Party may, no later than 20 days after the date of receipt of the notification made by the respondent Party in accordance with paragraph 2 of Article 16.20 (Implementation of the Final Report), request in writing that the original panel determine the length of the reasonable period of time. Such request shall be notified simultaneously to the respondent Party. The 20-day period referred to in this paragraph may be extended by mutual agreement of the Parties.
2. The original panel shall deliver its decision to the Parties within 20 days of the date of submission of the request made under paragraph 1.

Such request shall be notified simultaneously to the respondent Party.
4. 5. The panel shall deliver its decision to the Parties within 60 days of the date of submission of the request.

Article 16.23: Temporary Remedies in Case of Non-Compliance

1. If the respondent Party:
 - (a) fails to notify any measures taken to comply with the final report before the expiry of the reasonable period of time;
 - (b) notifies the complaining party in writing that it is not possible to comply with the final report within the reasonable period of time; or

- (c) the original panel finds that no measure taken to comply exists or that the measure taken to comply with the final report as notified by the party complained against is inconsistent with the covered provisions;

the respondent Party shall, on request of the complaining Party, enter into consultations with a view to reaching a mutually satisfactory agreement or any necessary compensation.

2. If the Parties fail to reach a mutual satisfactory agreement or to agree on compensation within 20 days of the date of receipt of the request made in accordance with paragraph 1, the complaining Party may deliver a written notification to the respondent Party that it intends to suspend the application to that Party of benefits or other obligations under this Agreement. The notification shall specify the level of intended suspension of benefits or other obligations.
3. The complaining Party may begin the suspension of benefits or other obligations referred to in the preceding paragraph 20 days after the date on which it served notice to the respondent Party, unless the respondent Party made a request under paragraph 7.
4. The suspension of benefits or other obligations:
 - (a) shall be at a level equivalent to the nullification or impairment that is caused by the failure of the respondent Party to comply with the final report; and
 - (b) shall be restricted to benefits accruing to the respondent Party under this Agreement.
5. In considering what benefits to suspend in accordance with paragraph 2, the complaining Party shall apply the following principles:
 - (a) the complaining Party should first seek to suspend benefits in the same sector or sectors affected by the measure that the

panel has found to be inconsistent with this Agreement or have caused nullification or impairment;³⁸

- (b) the complaining Party may suspend benefits in other sectors if it considers that it is not practicable or effective to suspend benefits or other obligations in the same sector.
- 6. The suspension of benefits or other obligations shall be temporary and shall only apply until the inconsistency of the measure with the relevant covered provisions which has been found in the final report has been removed, or until the Parties have reached a mutually satisfactory agreement or any necessary compensation.
- 7. If the respondent Party considers that the suspension of benefits does not comply with paragraphs 4 and 5, that Party may request in writing to the original panel to examine the matter no later than 15 days after the date of receipt of the notification referred to in paragraph 2. That request shall be notified simultaneously to the complaining Party. The original panel shall notify to the Parties its decision on the matter no later than 30 days of the receipt of the request from the respondent Party. The complaining Party shall not suspend benefits or other obligations until the original panel has delivered its decision. - (b) in a situation where necessary compensation has been agreed, the respondent Party may terminate the provision of such compensation no later than 30 days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2.

2. If the Parties do not reach an agreement on whether the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions within 30 days of the date of receipt of the notification, the complaining Party shall request in writing that the original panel examine the matter. That request shall be notified simultaneously to the respondent Party. The decision of the panel shall be notified to the Parties no later than 45 days of the date of submission of the request. If the panel decides that the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions, the complaining Party shall terminate the suspension of benefits or other obligations, or the respondent Party shall terminate the provision of the compensation, no later than 15 days of the date of the decision. If the panel determines that the notified measure achieves only partial compliance with the covered provisions, the level of suspension of benefits or other obligations, or of the compensation, shall be adapted in light of the decision of the panel.

Article 16.25: Suspension and Termination of Proceedings

If both Parties so request, the panel shall suspend its work for a period agreed by the Parties and not exceeding 12 consecutive months. In the event of a suspension of the work of the panel, the relevant time periods under this Section shall be extended by the same period of time for which the work of the panel was suspended. The panel shall resume its work before the end of the suspension period at the written request of both

Parties. If the work of the panel has been suspended for more than 12 consecutive months, the authority of the panel shall lapse and the dispute settlement procedure shall be terminated.
